A post-race veterinary examination revealed no visible abnormalities.

**MRS MOURINHO** (K. Crowther) - contacted and inconvenienced at the start by WHO RUNS THE WORLD, which was taken in. Laid out from near the 200 metres. A post-race veterinary examination revealed an abrasion to the outside of its off hind hock.

Correct weight was delayed to allow Stewards and the Starter to view the vision of the start in relation to OPHELIA BLUES and to consider a submission from this filly's rider, D. Caboche, in respect of declaring the filly a non-runner on the basis that it was denied a fair start owing to the barrier attendant having hold of the horse's head as the gates were released. After considering the submission, the evidence of the starter, on viewing the official footage and acting on their own observations, Stewards determined that while the barrier attendant did have hold of this horse's head when the gates were released, this action was unavoidable as the filly had been under starter's orders before becoming fractious and dropping its head as the gates were released. In the circumstances Stewards determined that the filly's predicament was as a result of its own barrier manners and consequently declared it a runner.
